About me — ○

I recently moved to Eugene, OR and am really excited to explore my new home. With past experience on agency design teams and a background in photography I pride myself on my unique skill set and in bringing beautiful and smart solutions to individuals and companies with branding, marketing or graphic needs. I'm most happy when I get to learn new design tricks and tools to make pretty, shiny designs.

I also love learning new hobbies. Recently I picked up knitting and can make you a scarf you would love to never wear.
